DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed July 13, 2007 are acknowledged.
2. Examiner acknowledges amended claims 37, 40, 43, 45, 49, 51 and 53.
3. Examiner acknowledges cancelled claims 1-36 and 54-59.
4. The rejection of claim 1 under 35 U.S.C. 102(b) as being anticipated by Hallman et al., U.S. Patent Number 5,505,808 is overcome by applicant's amendment.
5. The rejection of claims 1-5, 7, 9-13 and 30-36 under 35 U.S.C. 101 as being the same invention is overcome by the cancellation of claims 1-36.
6. The rejection of claims 37-53 under the judicially created doctrine of obviousness-type double patenting as being obvious over U.S. Patent Number 6,291,078 is overcome by applicant's amendment and submission of the terminal disclaimer.

Specification

7. The specification needs to be amended to include updated continuing data.

Double Patenting

8. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or

Art Unit: 1774

improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

9. Claims 37-53 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 14-30 of U.S. Patent No. 6,218,001. Although the conflicting claims are not identical, they are not patentably distinct from each other because the present application and the patented reference recite a resilient surface covering having improved

Art Unit: 1774

wear resistance comprising a wear layer comprising radiation curables acrylate and aluminum oxide. Additionally, both the reference and the present claims recite that the wear layer also comprises carborundum, quartz, silica, glass, a plastic a polymer or an organic material. The patented reference does not specifically disclose that the surface covering is for a floor. A surface covering is generic and would encompass a floor. Therefore, it would have been obvious to one of ordinary skill in the art to recognize that the surface covering of the patented reference encompasses a floor.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
